

# Financial Inclusion Alliance Roundtable

What do we know about in-work poverty, and what could employers do about it?

---

2.8 million people in the UK are in work but are not able to meet their basic needs in a sustainable way. This affects their wellbeing and has a knock on effect on productivity.

Poverty and money worries do not only affect those in lowest paid work.

To discuss findings from our recent research and what businesses can do about in-work poverty, Tomorrow's Company invites you to join us for a "dinner with a difference."
